

Samuel Olamilekan Adebayo

Email: adebayosamue.olamilekan@gmail.com | Portfolio: <https://meet-samuel.name.ng/>

Profile

Proactive QA Engineer with proven success in automation, performance, and security testing across web and mobile applications. Experienced in Cypress, Jest, and OWASP ZAP with a strong foundation in CI/CD, cross-browser validation, API testing and web development. Known for reducing defect rates, accelerating release cycles, and improving overall product reliability in both startup and enterprise environments.

Experience

QA ENGINEER | HARAMBEE | DEC 2024 – PRESENT

- Automated testing using **Playwright & Jest**, increasing coverage to **85%** for faster feedback cycles.
- Performed **security testing with OWASP ZAP**, identifying critical vulnerabilities pre-launch.
- Conducted **cross-browser testing via BrowserStack**, ensuring consistent performance across multiple platforms.
- Reduced **critical bug count by 45%** through thorough regression and exploratory testing.
- Identified and logged **20+ high-priority defects** across web and mobile platforms, improving overall performance.

BILLING SUPPORT | HOST AFRICA (GO54) | APRIL 2024 – PRESENT

- Managed customer billing queries, resolving **90%** of discrepancies within 24 hours.
- Maintained accounts receivable and automated hosting plan operations via WHMCS.
- Enhanced account setup accuracy, reducing client onboarding errors by **30%**.
- Supported technical troubleshooting and collaborated with the Dev team to improve billing flow.

QA ENGINEER | SKILL2RURAL BOOTCAMP (AFRICA & UK) | APRIL 2024 – DEC 2024

- Conducted end-to-end functional and regression testing for the LMS platform using **Cypress**
- Verified content deployment and user flow consistency across mobile and web devices.
- Leveraged expertise in identifying negative test cases and edge scenarios, ensuring comprehensive test coverage and contributing to improved product release quality by **60%**

QA ANALYST (TRANSACTION MONITORING) | COURTEVILLE BUSINESS SOLUTIONS PLC | AUG 2019 – JUN 2023

- Monitored transactions across five states on the Autoreg Platform, mitigating **80%** fraudulent activities.
- Increased reporting improvements with graphical variance analysis, cutting decision time by **50%**.

- Conducted data integrity validation to ensure accuracy, consistency, and completeness of transactional data used in monitoring for suspicious or anomalous activities.
- Collaborated with Developers to upgrade transaction systems, improving reconciliation accuracy by 85%.

Education

B.SC. IN BUSINESS ADMINISTRATION | UNIVERSITY OF LAGOS | 2020 - 2025

DIPLOMA IN BUSINESS ADMINISTRATION | KWARA STATE POLYTECHNIC | 2016 - 2018

Skills & Abilities

- Manual & Automated Testing (Functional, Regression, Smoke, E2E)
- **Test Automation:** Playwright, Cypress, Jest, Postman (API Testing)
- **Performance Testing:** K6 (Load & Stress Testing)
- **Security Testing:** OWASP ZAP, Burp Suite (Vulnerability Assessment)
- **CI/CD:** GitHub Actions,
- **Version Control:** Git/GitHub
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Frontend/Web:** JavaScript, React, Next.js, HTML/CSS, Tailwind CSS

Training

Data Structure and Algorithm – Udemy (2024)
