PROFESSIONAL SUMMARY

Results-driven QA Automation Engineer with 4+ years of experience designing and executing automated, performance, and security test suites for web and mobile applications. Proven ability to increase test coverage (85%+), cut defect leakage by 45%, and accelerate release cycles in Agile, CI/CD environments. Skilled in Playwright, OWASP ZAP, K6, GitHub Actions, and cross-browser testing. Strong foundation in JavaScript/React development and database validation.

CORE COMPETENCIES

- Test Automation (Playwright, Cypress)
- API & Performance Testing (Postman, K6)
- Security Testing (OWASP ZAP, Burp Suite)
- CI/CD Pipelines (GitHub Actions)
- Agile/Scrum Methodologies, JIRA
- Programming: JavaScript, TypeScript, Node.js, React, Next.js, HTML/CSS, Tailwind
- Databases: MongoDB, PostgreSQL, MySQL
- Version Control: Git/GitHub

EXPERIENCE

QA Engineer – Harambee, United Kingdom

Dec 2024 – Present

- Automated end-to-end test suites with Playwright, raising automated coverage from 50% to 85%.
- Executed security scans using OWASP ZAP, uncovering 10+ critical vulnerabilities and coordinating remediation before production release.
- Conducted regression and exploratory testing that reduces critical bugs by 65% per release.
- Logged and triaged 20+ high-priority defects, collaborating with developers to close 95% within the sprint.

QA Engineer – Skill2Rural Bootcamp (Africa & UK)

Apr 2024 – Dec 2024

- Designed and executed functional & regression tests for an LMS platform using Playwright, covering 200+ user scenarios.
- Validated content deployment pipelines on both web and mobile, guaranteeing a 99.8% success rate for user-flow consistency.
- Identified negative and edge-case test conditions, expanding overall test coverage and lifting release quality metrics by 60%.

QA Analyst – Courteville Business Solutions PLC, Lagos, Nigeria

Aug 2019 – Jun 2023

- Monitored real-time transactions across five Nigerian states on the Autoreg platform, detecting and preventing 80% of fraudulent activities.
- Developed graphical variance analysis dashboards, reducing decision-making time by 50% for compliance officers.
- Performed data-integrity validation on transactional datasets, ensuring 99.9% accuracy for AML monitoring.
- Collaborated with developers to upgrade transaction-reconciliation modules, improving accuracy from 70% to 85%.

EDUCATION

B.Sc. Business Administration – University of Lagos, Nigeria	2025
Diploma in Business Administration – Kwara State Polytechnic, Nigeria	2018
